Misprint Option

When stamping custom jobs, misprints occur about 5-15% of the time, depending on art, discs, and foil used. In order to ensure our customers receive the highest quality custom stamping at the lowest cost, we offer the following choices of what can be done with misprinted discs:

- Option 1:** Single stamped misprints for \$4.90. These discs have dropouts of foil or are slightly off center, and can be purchased per disc. (Yes, I want them all)
- Option 2:** Mis-stamps can be double stamped (with a different color foil) for \$5.25. This process is creating a one of a kind product that can often be sold for more than retail cost. (Yes, I want the misprints double stamped and want all of them)
- Option 3:** I don't want any of the misprinted stamps, but it's okay for Gateway Disc Sports to sell them.
- Option 4:** I prefer my stamp to not be distributed/sold to the public (by me or Gateway Disc Sports) as misprinted discs, and would like all of the misprints destroyed. (This option will incur a 10% surcharge on the gross sales amount of the discs or event package)

Please understand that these options are to help us maintain our lowest pricing and to keep our customers informed and happy. We reserve the right to reject, request or make modifications to submitted stamps for any reason.
